RESTAURANT

Enjoy a meal or a drink by the sea! The restaurant, as well as the wellness centre, offers an unbelievable view over the sea and the mountains... Do not miss the delicious meals which bring together a selection of quality, local products.

NATURISM

From April to early November, the Holiday Resort and the beach are naturist. Nudity is not mandatory in the spa. Therefore, if you are not into naturism and want to enjoy staying at Riva Bella, it is absolutely possible. 800m away from the wellness centre, you will find a beach where you can keep your clothes on.

Minimum age to enter the wellness centre : 16 years old.
Open 7/7 including on bank holidays from May to mid-October.
Open from Friday to Monday the rest of the year.

ACCOMMODATION

Throughout the year, come and experience a delightful stay at Riva Bella in the heart of a preserved natural environment. Check out our website, call us or drop by to learn more about the accommodation or about the campsite's facilities.

GIFT AND VOUCHERS

Make your loved ones happy! All our treatments can be offered in the form of gift vouchers valid for two years. If you order them by phone, we will send the vouchers the same day directly to your address by post or email, we are available all days, including on bank holidays.

LED (Light Emitting Diode)

Session 40 min : 80 € / x5 : 360 € / x 10 : 720 €

This last generation cold light technique of biophotomodulation can be experienced all year round. Painless and without any side-effects, it procures remarkable effects on the tissue repairing process. It reactivates your "youth capital" giving a shine to your skin texture. It reduces cutaneous loosening, scars, dilated pores, and acne, also helping to prevent hair loss and at the same time activating denser regrowth.

Do not hesitate to contact us to find out more

— PRACTICAL WELLNESS GUIDE —

In Riva Bella, we make sure you are always individually and personally welcomed and taken care of all along your time spent with us...
Therefore, no matter what you choose, do not forget to make an appointment.

Practical Information

Towels: They will be given to you on arrival.

Swimming suits: For your convenience ; for your massages, we give you disposable underwear.

Sandals: We give you one pair to walk around in the spa, for hygiene purposes and security reasons (slippery floor).

Accessories: Watches and jewellery will be uncomfortable during your treatments. You can leave them in your locker.

Steam rooms and biosauna: To ensure our hygiene rules, we ask you to leave your belongings in your locker (shower gel, brushes, oils, etc).

Staff: All members of our team are fully qualified. We do not take in students on internship.

Duos: Our formulas, cures, à la carte treatments such as steam room, seawater circuit, Jacuzzi, Yin-Yang bathes, wellness area, massages, beauty treatments and Salinea Cavitosonic can be performed for two people together!

Emotions Package: The wellness area and most of our treatments are available within the Emotions Packages. Ask us for more details!

Delay or cancellation: Any delay will shorten your treatment (if this happens, the price will not change). If you wish to change your appointment or cancel, please let us know 48hrs in advance ; any appointment which has not been cancelled will be charged.

Our ethos: The treatments we offer are for wellness, relaxation and are performed in a healthy respectful and non-erotic way. We maintain the right to refuse services and remove immediately and definitively any person whose behaviour were to go against our ethos.

Naturism: During the naturism period, the treatments can be done with or without swimming suit for anyone.

LEXICON

— THALASSOTHERAPY —

From the Greek words 'Thalassa' meaning sea and 'Therapeia' meaning treatment, Thalassotherapy is the therapeutic use of the properties of seawater, salt, seaweed, sea muds and the marine climate. Seawater contains more than a hundred minerals and trace elements necessary to our balance. Seaweed naturally grows in it, concentrating these precious elements necessary for life.

— SEAWATER HYDROTHERAPY —

Seawater Circuit 25 min: In an idyllic setting, enjoy our seawater pool, heated at 32°C in which you will find 9 steps of aquatic massages that will help you relax and get you back into shape. Through their strength and position, the jets and geysers tonify and heal the different parts of the body : draining, lifting muscular and articular tensions, activating the metabolism and the circulatory system, improving muscular tonicity for a delicious sensation of wellbeing. All this finished off with some time in the open air jacuzzi (included within the 25 min)! Our seawater circuit is not a swimming-pool, but an area dedicated to seawater therapy and to the Aquagym lessons.

Tonic Hydromassage Bath 20 min: Individual care in seawater at the ideal temperature. This hydromassage aids to remove excess fluid, reactivates blood circulation and brings a great overall general well-being sensation. We associate this with a program of water jets and light therapy which helps to bring back balance and energy.

Relaxing Duo Yin-Yang Baths 20 min :

A seawater bath to enjoy with a loved one ! Its shape will remind you of the Yin and Yang Chinese symbol, and allows a moment of relaxation face to face, with a separate bath for each of you. A soft treatment with revitalizing light therapy.

— SCRUBS AND WRAPS —

Body Scrubs : These treatments are performed by our estheticians in the Hammam. They eliminate toxins and dead cells, activate blood circulation and smoothen the skin.

Wraps : Performed in the Hammam, wraps help the in depth remineralising of the skin according to their specific qualities (seaweed, mud magnesium, calcium, etc...). This care enables you to experience the reparative force of water on a comfortable, warm surface without getting wet.

In case of contraindication for the hammam, the scrubs and wraps can be performed on a heated table. To be specified at the time of your reservation.

— OUTDOOR WELLNESS AREA —

(Not for those sensitive to the cold)

Two hours to enjoy at your own pace and according to your desires, the small steam room (48°C), the Biosauna (90°C), the open-air Jacuzzi (32°C) and the tropical shower, softly perfumed to refresh yourself. In this area, no care treatment will be performed. It is accessible from outside : please keep that in mind in case of bad weather. Please do not bring any personal belongings (shower gel, brushes, essential oils, etc).

— RELAXING CARES —

Hamman: A purely oriental tradition, the hammam provides an ideal moment for relaxation. It is comprised of one warm room and one steam room where the temperature is around 48°C. In this hot, humid and perfumed atmosphere, muscular tensions relax, bronchial tubes become less congested and so help to eliminate toxins.

Salinea Cavitosonic 20 min: This innovative and unique care relieves the respiratory tract, nourishes the skin and resources the organism combining the effects of Corsican essential oils with the famous Ems salt diffused as a micro-fog under Wood lamps (blue light). Perfect relaxing care, it brings a delicious sensation of physical and emotional wellbeing.

Massaging Water Bed 20 min: This massage and relaxation health care enables you to experience the reparative force of water on a comfortable warm surface without getting wet.

— MASSAGES —

Californian: This soft body and facial massage, with slow continuous and wrapping motions, brings a general better-being feeling, calming the body and mind.

Energetic: Deep tissue massage, ideal for expelling tension from the entire body , reactivates blood circulation and re-balances the energies, giving a delicious relaxing sensation.

Ayurveda: Originating from India, Ayurvedic massage uses a combination of slow and fast movements, light and firm pressure, kneading, stretching and friction to stimulate blood circulation, relax muscles and soothe the mind.

Warm Shells: The heat of the shells relieves the nervous system and tense muscles. This massage is recommended against stress and tiredness because of its enveloping effect. It also promotes better blood and lymphatic circulation.

Shiatsu: From Japan, Shiatsu is a relaxing and preventative wellbeing technique. Following the meridians of acupuncture, with pressures and stretches, it balances the whole energetic system.

Foot reflexology: Massage of Chinese origin which allows to relax and reorganize the vital functions of the body by applying pressure to the arch of the foot.

Watermass: This care is incomparable to get back into shape! The watermass enables the body to fight against water retention and lose skin associating the positive effects of draining, palpatore-roll technique and seawater. After a few sessions, it reduces cellulite, made from water or fat, bringing a feeling of lightness. The benefits of the watermass can be felt from a single session, by its draining effect.

OUR MESSAGES

On your own or accompanied

Performed with Corsican organic essential oils, our massages are beauty, wellbeing and relaxation treatments. They are considered as non-therapeutic and non-medical.
